

Book recommendation by Dragon Class

This is Handa - she wants to take some delicious fruits to give to her friend Akeyo. However, some animals she passes on the way have other ideas. At the end of the story, it is not only Akeyo who has a surprise!

Dragon Class have thoroughly enjoyed this story from another culture! We have tasted the fruits from the story and described the African animals that feature in this book. We have thought about our own favourite foods and animals that we see in Britain and we have used the story of Handa's surprise to write our own stories!
